

DONG LUU

Haines City, FL | 405-543-8784 | dong.luu520@gmail.com | <https://github.com/Dluu520> | <https://portfolio-dluu-dev.vercel.app/>

PROFESSIONAL SUMMARY

Recent Bachelor of Science graduate with prior professional experience in full-stack web development and a technical/customer-support background. Experienced with JavaScript, TypeScript, React, Next.js, Node.js, MongoDB, Mongoose, REST APIs, SQL, Git, and Postman. Built and maintained business web applications, including CRM functionality, authentication, scheduling, search/filtering, reusable UI components, and database-backed APIs. Interested in software quality assurance, software development, and data analytics roles where technical problem solving, troubleshooting, communication, and attention to detail are valued.

TECHNICAL SKILLS

Languages JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3

Frontend React, Next.js, Tailwind CSS, Responsive Design

Backend Node.js, Express.js, REST APIs, MongoDB, Mongoose

Tools Git, GitHub, Postman, VS Code, npm

Development Component-Based Architecture, API Integration, Database Design, Version Control, Agile/Scrum

Emerging Focus Software QA/testing, test automation concepts, data analytics, Power BI, BigQuery

PROFESSIONAL EXPERIENCE

Good Greek Moving & Storage — Full-Stack Web Developer

Jupiter, FL | 2023–2024

- Built and maintained full-stack business web applications using React, Next.js, TypeScript, Node.js, MongoDB, Mongoose, and Tailwind CSS.
- Developed and maintained a CRM system for customer management, scheduling, and operational workflows.
- Built reusable React components and responsive interfaces to improve consistency and usability across the application.
- Designed and implemented REST APIs, database schemas, and Mongoose models for application data.
- Implemented authentication and application functionality while troubleshooting front-end, backend, and database issues.
- Worked in a two-person Agile development environment, participating in sprint planning, code reviews, and collaborative development using Git.

LXStudios Inc. — Techceptionist / Student Technology Support

Oklahoma City, OK | 2020–2023

- Provided technology and operational support while assisting users and staff in a customer-facing environment.
- Troubleshoot technology-related issues, identified problems, and communicated practical solutions to users with varying levels of technical knowledge.
- Worked through UCO's student-worker program, gaining experience supporting technology in a professional environment.

Shadowed field technicians to gain exposure to on-site technical service, troubleshooting, equipment, and field-support workflows.

Universal Orlando Resort — Quick Service Associate / Server

Orlando, FL | 2024–Present

- Work in a high-volume operational environment requiring accuracy, reliability, teamwork, and effective communication.
- Follow established procedures, manage multiple priorities, and resolve customer and operational issues while maintaining professional service.

SELECTED PROJECT EXPERIENCE

CRM / Business Web Application

React, Next.js, TypeScript, Node.js, MongoDB, Mongoose, Tailwind CSS, REST APIs

Developed business-oriented CRM functionality including customer management, scheduling workflows, search/filtering, authentication, reusable components, and database-backed APIs.

Additional Full-Stack Projects

Developed web application projects including Second Brain, and an employee-management application, applying full-stack architecture, database integration, UI development, CRUD operations, and software debugging.

EDUCATION

University of Central Oklahoma — Bachelor of Science

Graduated May 8, 2026

PROFESSIONAL DEVELOPMENT

Google Data Analytics Professional Certificate — Coursework / Professional Development Developing skills in data analysis, SQL, data cleaning, data preparation, spreadsheets, data visualization, and analytical problem solving.

CAREER FOCUS

Primary areas of interest: Software Quality Assurance / Test Automation, Software Development, and Data Analytics.
