SUMMARY

Full Stack Developer with professional experience building and maintaining web applications using JavaScript, TypeScript, React, Next.js, Node.js, MongoDB, and REST APIs. Experienced working in Agile environments, collaborating within small development teams, and delivering scalable, user-focused software solutions. Strong background in designing reusable components, developing backend APIs, integrating databases, and solving technical challenges. Passionate about continuous learning and eager to contribute to a collaborative engineering team building secure, high-quality software.

EDUCATION

University of Central Oklahoma

Bachelor's Degree in General Studies, Minor in Computer Science

EXPERIENCE

Full Stack Developer

2022 – 2023

Good Greek Moving & Storage

- Developed a company CRM application using React, Next.js, TypeScript, Node.js, MongoDB, and Tailwind CSS.
- Collaborated within a two-developer Agile team to design, build, and enhance customer management features.
- Built reusable React components to improve maintainability and reduce duplicate code.
- Developed REST API endpoints and integrated frontend components with backend services.
- Designed MongoDB schemas and Mongoose models to support application data and business workflows.
- Implemented authentication and login functionality for secure user access.
- Built customer management workflows, scheduling features, and dynamic form interfaces.
- Implemented search and filtering functionality to improve user productivity and data accessibility.
- Participated in sprint planning, code reviews, Git version control, and collaborative software development practices.

Quick Service Associate

2025 – Present

Universal Orlando Resort – Epic Universe

- Deliver exceptional guest experiences in a fast-paced, high-volume environment.
- Collaborate with cross-functional teams to maintain operational efficiency while adapting quickly to changing priorities.
- Demonstrate strong communication, problem-solving, and customer service skills under pressure.

Server

2025 – Present

Sushi Kaizen

- Provide outstanding customer service while managing multiple priorities in a fast-paced restaurant environment.
- Resolve guest concerns professionally while maintaining a positive dining experience.
- Consistently demonstrate teamwork, communication, and attention to detail.

PROJECTS

Second Brain | Personal productivity web application built with Next.js, React, TypeScript, and Tailwind CSS featuring reusable components, structured organization, and responsive design.

- Technologies: Next.js, React, TypeScript, Tailwind CSS

Agilify | Project management application featuring task management, CRUD operations, REST APIs, MongoDB integration, authentication, and responsive user interfaces.

- Technologies: React, Next.js, Node.js, MongoDB, Mongoose, REST APIs, Tailwind CSS

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: React, Next.js, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST APIs, MongoDB, Mongoose

Tools: Git, GitHub, Postman, VS Code, npm

Development Practices: Agile/Scrum, Component-Based Architecture, Responsive UI Design, API Integration, Database Design, Version Control

CERTIFICATIONS

Google Data Analytics Professional Certificate (In Progress)
